# BEAUTIFUL LIFE

The Beautiful Life is a one-of-a-kind docu-reality TV series about sexuality. Fifteen 26-minute episodes tell the story of ordinary people's sex life experience and partners' relationships. Through our unique approach the viewer obtains a very authentic and informative insight into the human sexual and emotional world.

Each episode presents a certain topic through the interaction of three elements: stories of ordinary people, who share their experience and thoughts, experts (urologists, psychologists, dermatologists, gynecologists, plastic surgeons ...), who provide a factual support and professional actors, who demonstrate certain aspects of the topic. The latter is the result of a high-quality production where actors are positioned on a rotating bed within a special studio that provides an enchanting ambiance. Thus, the viewer does not perceive the pictures as pornographic as they are tasteful and play an indispensable role in the discussion.

The focus lies on the stories of regular people told without any script by couples or individuals in their domestic environment, which makes it easier for the viewer to identify with a certain issue.

The series is perfectly suitable for a very general adult audience (18-65 female and male) and even though the focus often lies on sexual problems and the style is slightly erotic, it is soft enough for **Free TV**.
